NURSE PRACTITIONER

ADVANCED PRACTICE / FAMILY PRIMARY CARE / WOMEN'S HEALTH NURSE PRACTITIONER INTERNAL MEDICINE / GERIATRIC CARE

Dedicated, dual board-certified family nurse practitioner with 14+ years of experience in women's health care, primary care, oncology, cytotechnology, and clinical research. Consistently oversee other nursing staff, mentor students within preceptorship and pursue continuing education programs to cultivate a robust skill set. Competent clinical experience and compassionate relationship manner focused on mindful and positive healthcare experiences. Successful in many areas of healthcare: diagnostics, training, specialty treatment research and therapies. Broad spectrum of assessment and evidence-based treatment of primary care conditions and those unique to women, covering a wide age range and requiring a higher level of specialized and advanced experience.

CAREER HIGHLIGHTS & ACHIEVEMENTS

- **Comprehensive** experience applying therapeutic patient-centered care with a broad scope of advanced healthcare treatment, leading and delegating responsibilities with efficiency.
 - **Confident** managing 20+ patients per day, overseeing all aspects of assessment and clear facilitation of treatment plans, developing long-term patient relationships in the process.
 - **Experienced** with IUD and Nexplanon insertion and removal, vulvar and endometrial biopsies, I&Ds, suturing techniques, trigger point injections, and additional diagnostic tests and procedures to inform the best plan for success.
 - **Achieved** BioTE hormone replacement therapy certification, DEA number, and the FMCSA's NRCME certification for DOT exams of CMV drivers. Maintains medical continuing education including pharmacology.
 - **Consistently** evaluate efficacy of treatment, assisting physicians, advanced practice providers and interdisciplinary staff to develop robust knowledgebase and improve personalized treatment and follow-up care. Apply holistic approach with pediatric to geriatric aged patients alike.
 - **Train** and mentor nursing practitioner students and registered nurses, manage staff and consult home health care professionals to reduce hospital visits and recurring infection rates.
-

PROFESSIONAL EXPERIENCE

2020 - Present

Family Nurse Practitioner, Internal Medicine, Anytown, GA

- Provide comprehensive primary care to patients with acute or chronic conditions requiring lab work, in-depth diagnostics, and screening for best treatment plans.
- Develop and implement treatment plan with physicians, advocating for and educating patients on medical and non-medical options and coordinating with other therapeutic disciplines.
- Interpret lab and radiology results to treat direct and complex medical conditions, manage medications, and guide progress with disease management and rehabilitation efforts.

2013 - 2020

Family Nurse Practitioner, Health Medical and Research Center, Anytown, GA

- Delivered primary family care within private clinic. Developed treatment plans to manage regular wellness and acute or chronic situations, including educating patients and families on healthy lifestyle habits and disease prevention.
- Coordinated with physicians and other nursing staff to source specialist care, physical and occupational therapies, and facilitate home health services.
